

# How to configure a room in iObeya.

Select "Categories" in the Docket and drag it to the room and name the category.

Select "Blank boards" in the Docket of size "2A0" and drag it to the room.

Give the board a name.

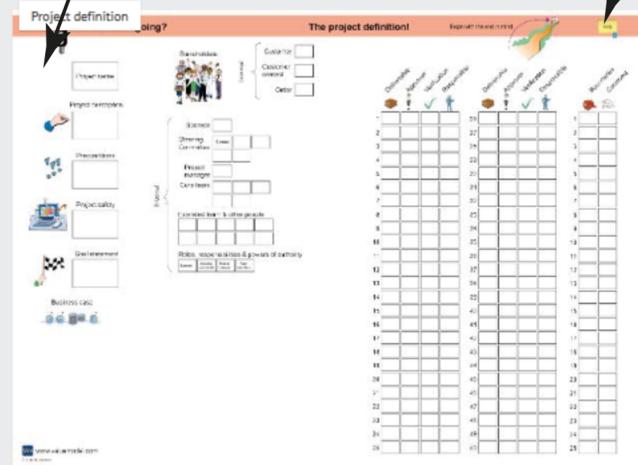

Click on "Custom image" and drop one of the PNG image files.

In each of the boards:

Create a small "Standard note" and name it "Help".

Click on the note and add a hyperlink to: <https://www.valuemodel.com/iobeya>
